

TRI-BUILT® METAL ROOF FLASHINGS

FEATURES

- **Sleeve Flexibility:**

Absorbs vibration and pipe movement caused by expansion and contraction

- **Easy On-Site Customization:**

Designed to accommodate all standard installation requirements

- **Adaptable Base:**

Molds to most panel configurations and roof pitches, regardless of pipe location

- **Weather Protection:**

Constructed from EPDM or high-temperature silicone, these flashings are specifically compounded for maximum resistance to weathering, ozone, and ultraviolet light

- **Lab-Tested and Certified EPDM:**

Ensures reliability and durability under rigorous conditions

SILICONE FEATURES:

- Complies with UL94-HB standards
- Clearly marked dimensions for convenient sizing in specific applications
