

TRI-BUILT® Perma-Boot®

Furnish and install TRI-BUILT® Perma-Boot® roof vent flashing. Product is made from a UV stabilized Polymer. Do not use petroleum based mastics, sealing compounds, or paints on the flashing as it will degrade the flashing and void the warranty. Usable from 3/12 (14°) to 12/12 (45°) roof pitch.

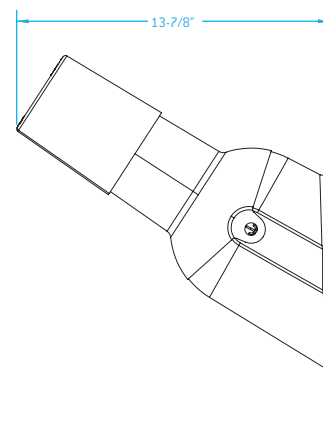

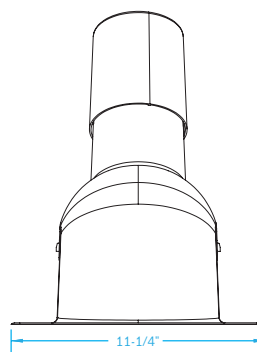

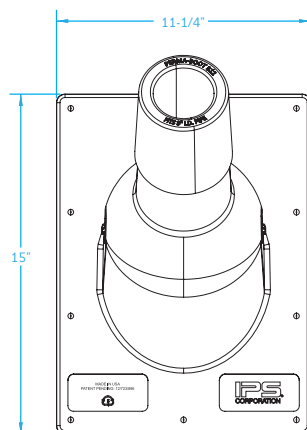

Retrofit

ROOF SYSTEM	RETROFIT
Shingle	Excellent
Flat Tile	Trimming may be required
Irregular Shape Tile	Not recommended
Metal	Trimming may be required
